

## Flexible and Innovative Financing

The Flexible Care Option gives you the ability to use financing, established through the ARC® Affordable Payment Plan, to pay for medical services, procedures and/or lab fees provided by participating ARC practices.

## Pharmacies

The ARC Pharmacy Plan enables you to pay for your fertility medicines through our financing program. We offer this program by partnering with two leading mail-order fertility pharmacies. Both pharmacies provide high-quality patient services, including:

- Free express home delivery
- Pharmacists specializing in fertility therapies
