

# IVF Success That's Affordable for You

## Univfy® PreIVF™ Report

Personalizing your fertility success\*

www.univfy.com

UNIVFY ORDER 317150      MRN L1234      NAME Lisa A User  
TEST Univfy PreIVF      DOB 12/13/1980      AGE 35.1      TEST DATE 02/01/2016

### Your Probability\* of Having a Baby in:

IVF      47.3 %      72.2 %      85.4 %      146 %

How does your probability of having a baby from IVF compare to intrauterine insemination (IUI) or trying naturally on your own (i.e. no treatment)?

The average probability that a young and healthy couple in their 20s will conceive per month of trying on their own: 25%  
The average probability that a couple with 3 years of infertility will conceive naturally per month of trying on their own: <3%

The average probability that a couple with infertility will conceive in a single intra-uterine insemination (IUI) cycle: 13%

\*There a cycle means a fresh IVF cycle and any frozen embryo transfers using embryos from that fresh IVF cycle.  
This probability accounts for IVF success from the use of all embryos (fresh and/or frozen) resulting from each fresh IVF cycle.

### Your Outlook

In a group of 100 women starting their first IVF treatment:

40.0 have success rates higher than yours

10.0 have success rates the same as yours

50.0 have success rates lower than yours

We analyzed your health data by applying Univfy's predictive technologies to IVF data from Clinic-A to develop an IVF prediction model that is specifically validated for Clinic-A and its patients.

What are the chances that you won't have a baby after 3 cycles?

## Maximize Your Chances of IVF Success With **Accurate & Personalized Probabilities\***

- ✓ Your personalized Univfy® PreIVF™ Report\* will show your probability of having a baby after 1, 2 and 3 tries at IVF.
- ✓ See the cost of IVF and your financial options to choose a treatment plan that gives you the best chance to succeed.

Visit [www.univfy.com/ivf-success](http://www.univfy.com/ivf-success) to learn more.

## How Do You Increase Your Chances of IVF Success at Lower Cost?

### Achieve IVF Refund Program

The [Achieve IVF Refund Program](#) helps you choose IVF in a way that saves you time and money, while improving your chances of having a baby.

- ✓ Eligible patients can have up to 3 IVF treatments—with the ability to use all of your viable, frozen embryos, if needed.
- ✓ The package costs less than paying for 3 treatments separately.
- ✓ Eligible patients who do not succeed after completing the program will receive a refund of 50% to 100% of the cost.
- ✓ Atlantic Reproductive Medicine Specialists is proud to be able to offer the Achieve IVF Refund Program to up to 50% of our patients.

\*US Patent Number 9,458,495B2, foreign counterparts and other issued and pending patents.
